GENERAL INFORMATION

TDD Service

TDDs (Telecommunications Devices for the hearing and speech impaired) are typewriter-like devices that permit hearing or speech impaired persons to communicate via the telephone with other TDD-users. The telephone receiver fits into an acoustic coupler on the typewriter-like device and permits the users to type messages back and forth.

Florida Telecommunications Relay, Inc.

Florida Telecommunications Relay, Inc. (FTRI) distributes specialized telecommunications devices, free-of-charge to eligible deaf, hard of hearing, deaf and blind, and speech impaired citizens of Florida. FTRI provides Volume Control Telephones for the hearing or speech impaired and TDDs, Large Visual Display TDDs, and Braille TDDs to deaf and deaf and blind citizens. Audible, Visual, and Tactile Ring Signaling devices are also available through this program. For applications or information call: 1-800-222-3448 (Voice) or 1-888-447-5620 (TTY), Monday through Friday, hours 8:30 A.M. to 5:00 P.M.

Telecommunications Access System/Florida Relay Service

On May 1, 1992, a statewide Telecommunications Relay Service was implemented in Florida. This service is provided under state contract to every telephone customer in Florida regardless of the long-distance company that a customer uses to make non-relay long-distance calls. The Relay Service provides 24-hour telephone access staffed by specially trained Communications Assistants using special telecommunications equipment. These Communications Assistants relay conversations between people with hearing and/or speech impairments who use a Telecommunications Device for the Hearing and Speech Impaired (TDD) and people who can speak and hear and who use standard telephones. There will be no charge for local calls made using this system. Because of the additional time required to make a relay call, customers with a hearing or speech impairment or customers calling a person with a hearing or speech impairment will receive a discount on their long-distance calls using the Telecommunications Relay Service. For more information concerning available discounts, you may contact your Local Service Provider.

The Relay Service can be accessed by dialing:

Voice Callers.....**711** or Toll-Free **1-800-955-8770**
TDD Baudot Callers.....**711** or Toll-Free **1-800-955-8771**
TDD ASCII Callers.....**711** or Toll Free **1-800-955-1339**

Lifeline and Link-Up Programs

Lifeline Telephone Service is a Federal telecommunications service assistance program. This program is designed to provide eligible customers a reduction on their monthly telephone bill.

The Link-Up program helps low-income subscribers initiate telephone service by paying half of the service connection charges up to $30.

For more information on either of these programs, call your local telephone business office.

cing obscene or harassing telephone s is a crime. Contact your police artment or an ALLTEL representative 1-888-558-6700.

Directory Listings

al Listings are available at no charge to o people with the same last name. This an example of a dual listing:

Smith Jeffrey & Jessie

Additional white page listings are available for a monthly fee.

A non-published telephone number is available for a monthly fee.

Occasionally the telephone company may have to change a customer's telephone number to meet the needs of the business.

No Sales Solicitation

The Telephone Solicitation act provides that consumers may register their telephone numbers in a "No Sales Solicitation" list published by the Florida Department of Agriculture and Consumer Services, Division of Consumer Services. With certain exemptions, telemarketers are prohibited from placing a sales solicitation call to any number that appears on the Division's list or any unlisted or unpublished telephone number.
For information, please contact:
Division of Consumer Services, Mayo Building, 2nd Floor, Tallahassee, Florida 32399-0800 or call:
(1 + 800-HELPFLA) 1-800-435-7352
(1 + 800-FLAYUDA) 1-800-352-9832
Spanish

(Note: There is an initial fee of $10.00 for the first year of this service.
Annual Renewal Fee: $5.00)

Florida Telecommunications Relay, Inc.

Florida Telecommunications Relay, Inc. (FTRI) distributes specialized telecommunications devices FREE-OF-CHARGE to eligible deaf, hard of hearing, deaf and blind and speech- impaired citizens of Florida. FTRI provides Volume Control Telephones for the hearing-or- speech-impaired and TDDs, and provide Large Visual Display TDDs and Braille TDDs to deaf and deaf and blind citizens. Audible, Visual and Tactile Ring Signaling Devices are also available through this program.
For Application or Information call:
1-800-222-3448 (VOICE, TDD)
Monday-Friday, 8:30 a.m.-5:00 p.m.

The Florida Relay Service

The Florida Relay Service (FRS) provides a communication link between people who use standard telephone equipment and those individuals who use a Telecommunications Device for the Deaf (TDD).

FRS provides telephone access 24 hours a day, 365 days a year. To use FRS, call:
1-800-955-8771 (TDD)
1-800-955-8770 (VOICE)
Although there is no charge for calling the 800 number, applicable operator service charges and long-distance charges apply.

The Telecommunications Access ACT of 1991 (TASA) mandates that the FTRI Equipment Distribution Program and the Florida Relay Service be funded by a monthly surcharge billed to all phone customers in Florida.

Telephones Used For Business Purposes

A telephone number which is used substantially for business purposes or is advertised in connection with the sale of products or services should be billed at the business rate.

Telephone Service

In the event a customer is dissatisfied with the utility company's decision involving a complaint over rates or service, contact the Florida Public Service Commission Division of Consumer Affairs, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, 1-800-342-3552 (TDD & Voice).

Statement Of Non-Discrimination

ALLTEL is the recipient of Federal financial assistance from the Rural Utilities Service, an agency of the U.S. Department of Agriculture, and is subject to the provisions of Title VI of the Civil Rights Act of 1964, as amended, Section 504 of the Rehabilitation Act of 1973, as amended, the Age Discrimination Act of 1975, as amended, and the rules and regulations of the U.S. Department of Agriculture which provide that no person in the United States on the basis of race, color, national origin, age, or handicap shall be excluded from participation in, admission or access to, denied the benefits of, or otherwise be subjected to discrimination under any of this organization's programs or activities.

The person responsible for coordinating this organization's nondiscrimination compliance efforts is the president of this company. Any individual, or specific class of individuals, who feels that this organization has subjected them to discrimination may obtain further information about the statutes and regulations listed above from and/or file a written complaint with this organization; or the Secretary, U.S. Department of Agriculture, Washington, D.C. 20250; or the Administrator, Rural Utilities Service, Washington, D.C. 20250. Complaints must be filed within 180 days after the alleged discrimination. Confidentiality will be maintained to the extent possible.

Telecommunications for the 21st Century

Florida Telecommunications Relay, Inc.

Florida Telecommunications Relay, Inc. (FTRI) distributes specialized telecommunications devices, FREE-OF-CHARGE to eligible deaf, hard of hearing, deaf and blind and speech impaired citizens of Florida. FTRI provides Volume Control Telephones for the hearing or speech impaired, and TDDs, Large Visual Display TDDs and Braille TDDs to deaf and blind citizens. Audible, Visual and Tactile Ring Signaling Devices are also available through this program.

For Application or Information call:

1-800-222-3448 (V, TDD)
Mon. - Fri. 8:30 a.m. - 5:00 p.m.

The Florida Relay Service

The Florida Relay Service (FRS) provides a communication link between people who use standard telephone equipment and those individuals who use a Telecommunications Device for the Deaf (TDD).

FRS provides telephone access 24 hours a day, 365 days a year. To use FRS, call:

1-800-955-1339 - TDD ASCII Callers
1-800-955-8771 - TDD Baudot Callers
1-800-955-8770 (VOICE)

The Telecommunications Access Act of 1991 (TASA) mandates that the FTRI Equipment Distribution program and the Florida Relay Service be funded by a monthly surcharge billed to all phone customers in Florida. Currently, the surcharge is 12 cents.

Georgia Relay Center

The Georgia Relay Center is in operation seven days a week, 24 hours a day. The Center provides relay service for telephone calls, personal or business, to or from speech- or hearing-impaired telephone customers within the state of Georgia and locations anywhere in the United States and internationally to English-speaking persons.

Hearing- or speech-impaired customers type on their TDDs the name and number of the person to be called. Hearing customers tell the communications assistant the name and number of the hearing- or speech-impaired person they wish to call. The specially trained communications assistant will then relay the call word for word and in strictest confidence. Local calls are relayed free of charge, and long distance calls will be billed at a 25% discount. There are no extra charges for using the Center. The Center relays both intrastate and interstate calls.

Information For Customers With Disabilities

Operator/Directory Assistance

Call 1+800+688-4486

(TTY* only. Nationwide service is provided by MCI.)

Florida Relay Center

This service, implemented by the Florida Public Service Commission, allows customers who use Text Telephones (TTY) to communicate with others. Special operators translate TTY messages into speech for non-TTY users and vice versa. No charges apply to local calls. BellSouth and other local telephone companies collect $.11 per phone line per month from every customer. The collected monies will go into a trust fund to operate the Florida Relay Center. To make calls through the Florida Relay Center, call **1+800+955-1339** (TTY ASCII Callers), **1+800+955-8771** (TTY Baudot Callers) or **1+800+955-8770** (Voice Callers).

Florida Telecommunications Relay, Inc.

Florida Telecommunications Relay, Inc. (FTRI) contributes specialized telecommunications devices, FREE-OF-CHARGE to eligible deaf, hard of hearing, deaf and blind and speech-impaired citizens of Florida. FTRI provides volume control telephones, TTYs, large visual display TTYs, and Braille TTYs to citizens. Audible, visual and tactile ring signaling devices are also available through this program. For application or information call: **1+800+222-3448** (Voice/TTY) Monday - Friday 8:30 am - 5:00 pm EST.

Public Telephone Calls Using Relay Services

People who use relay services to make long-distance calls on pay telephones can pay for these calls with a calling card. A calling card allows you to have calls billed to your telephone or to your card account. Calling cards can be used at coin telephones as well as any other telephone. The calls are billed at the same rate as long-distance calling card calls that do not use relay services. Local calls through a relay service from a pay telephone are free of charge.

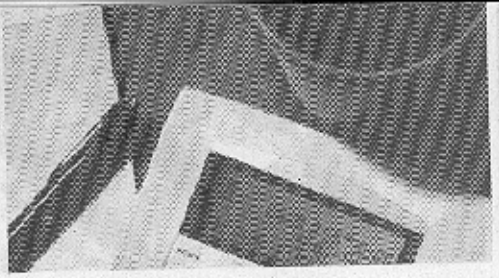
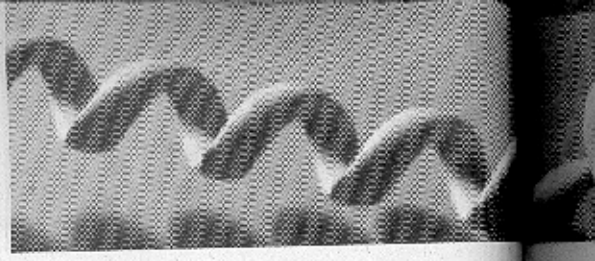
NO CASE IS TOO SERIOUS FOR US TO HANDLE



GENERAL INFORMATION



Busy Line

If the number you're calling is always busy, you can ask the operator to check the line to see if the number is working properly. If you have an emergency, ask the operator to interrupt the conversation. Operator charges might apply. To ensure that you don't miss emergency calls—even when you're on the phone—check into optional Call Waiting or Voice Mail services.

Operator Assistance for Local Calls

If you need assistance making a local call, dial "0," and a local operator will help you. The following charges will apply:

Assistance for local calls (Customers with disabilities will not be charged.)

Station-to-Station	$1.50
Person-to-Person	$3.00
Customer dialed calling card service	$0.75
Operator assisted calling card service	$1.50
Verification of a busy line	$1.00
Interruption of conversation	$1.50

Rates and allowances are subject to change.

Calling Assistance for People With Hearing or Speech Disabilities

Verizon offers a variety of special services and equipment to assist customers who have speech, hearing, visual, or other physical disabilities.

- For information about installation/service and billing, call Verizon's Customer-Contact Center via the Florida Relay Service.
- For information about repair, call Verizon Repair Resolution Center via the Florida Relay Service.

(See the next column for instructions on how to use the Florida Relay Service to call Verizon.)

Customers with disabilities should contact their Verizon Customer Contact Center for Directory Assistance charging exemption information.

Customers with TTYs can use the Florida Relay Service to call Verizon Departments. Here are the numbers to call:

For installation/service: Call **1-800-955-8771** for Baudot communications, or **1-800-955-1339** for ASCII communications (Monday – Friday, 8 AM – 5 PM). Residential customers ask for **1-800-483-4000.** Business customers ask for **1-800-483-5000.**

For billing information: Call **1-800-955-8771** for Baudot communications, or **1-800-955-1339** for ASCII communications (Monday – Friday, 8 AM – 5 PM). Residential customers ask for **1-800-483-3000.** Business customers ask for **1-800-483-5000.**

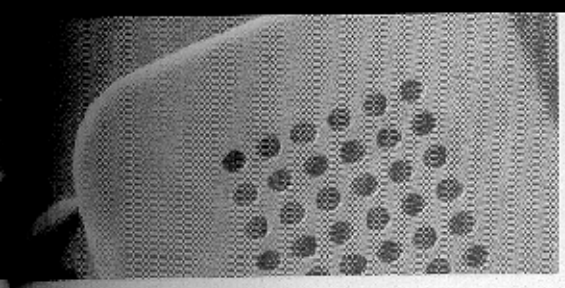
For repair service: Call **1-800-955-8771** for Baudot communications, or **1-800-955-1339** for ASCII communications (24 hour service). Residential customers ask for **1-800-483-1000.** Business customers ask for **1-800-483-2000.**

Directory and Operator Assistance is available to TTY users 24 hours a day. The number to call is **1-800-855-1155.** (Calls to this number are free, but long-distance and operator assistance charges will apply.) Customers with physical or visual disabilities may be exempt from Directory Assistance charges. Please contact Verizon's Customer Contact Center for more information.

Florida Relay Service

The Florida Relay Service enables callers using Text Telephones (TTYs) to communicate with other telephone users who don't have a TTY. The relay service can be accessed 24 hours a day by calling these toll-free numbers:

TTY ASCII communication only	**1-800-955-1339**
TTY Baudot communication only	**1-800-955-8771**
Voice communication only	**1-800-955-8770**
Relay customer service	**1-800-955-8013**



GENERAL INFORMATION

Local calls made through the Florida Relay Service are free. Charges for long-distance calls made through the relay service are discounted 50% because of the extra time it takes to make a relay call. Long-distance relay calls made by or to customers with hearing or speech disabilities and visual disabilities qualify for an additional 10% discount. Customers who qualify for this extra discount should call the Verizon Customer Billing Center.

Long-Distance Calling

Use area codes when making calls to locations outside of your local calling area. Refer to the listings starting on page 24 to locate the area codes you need. If the city you want is not listed, contact your long-distance provider.

To make a long-distance call without operator assistance, dial "1" + area code + number. You can save money by dialing your calls direct without involving the operator. Charges for long-distance calls are set by your long-distance provider. Contact your provider for information about rates and discounts.

To use your calling card, dial "0" + area code + number. You will hear a special tone indicating you should enter your calling card number. If you are calling from a rotary phone, wait for the operator to come on the line to assist you.

For operator assistance, dial "0" + area code + number. When the operator answers, explain the type of call (listed here) you want to make. Charges for operator-assisted calls begin once the operator connects you to the person you are calling and leaves the conversation. These charges are in addition to the direct-dialed rate for the call. You can ask the operator to tell you the time and charges for the call.

Station-to-Station: Call station-to-station if you want to talk to anyone who is likely to answer the phone at the number you're calling.

Person-to-Person: Calling person-to-person is an efficient use of your long-distance dollars. It ensures that you will only be charged for the call if the particular person or specific extension you are calling is available.

Collect: Collect calls are especially convenient if you are calling from a pay phone and you don't have the required change or a calling card. The operator will ask the person you are calling to accept charges for the call.

Third-Number Billing: What if you are in someone else's home or office and need to make a long-distance call but want the charges to appear on your own telephone bill? You can request third-number billing from the operator. Third-number billing is also useful if you are calling from a pay phone and do not want to call collect. When you request third-number billing from any phone, someone must answer the third number and approve the call before it can be completed.

Local Toll and Long-Distance Service

In addition to area codes, all states are divided into one or more geographic regions called LATAs (Local Access and Transport Areas). A toll call from one point to another within a LATA is called an intraLATA or local toll call. A toll call to a point outside a LATA is called an interLATA or long-distance toll call.

"Equal Access" now allows you to choose any telecommunications company for each of these types of calls: 1) Local Toll Calls (within a LATA), 2) Long-Distance Calls (between LATAs). You may or may not decide to choose the same company for both. Once you have notified your local telecommunications company of your choice, all of your toll calls will be handled automatically by the company you chose whenever you dial "1" + area code + number to make the call.

For more information, please see pages 2-9 for a list of contact numbers.

Consumer Tip: Make sure you know what you are paying for Local Toll and Long-Distance calls, as they may have different rates. Many long-distance discount rates are being advertised (e.g.; 5 cents a minute). Before you switch all of your long-distance calls, be sure to ask if these rates also apply to your Local Toll Calls. For these calls, you may be better off on the plan you are currently on.

GENERAL INFORMATION

TDD Service

TDD's (telecommunications devices for the hearing and speech impaired) are typewriter-like devices that permit hearing or speech impaired persons to communicate via the telephone with other TDD-users. The telephone receiver fits into an acoustic coupler on the typewriter-like device and permits the users to type messages back and forth.

Florida Telecommunications Relay, Inc.

Florida Telecommunications Relay, Inc. (FTRI) distributes specialized telecommunications devices, free-of-charge to eligible deaf, hard of hearing, deaf and blind, and speech impaired citizens of Florida. FTRI provides Volume Control Telephones for the hearing or speech impaired and TDD's, Large Visual Display TDDs, and Braille TDDs to deaf and deaf and blind citizens. Audible, Visual, and Tactile Ring Signaling devices are also available through this program. For applications or information call: 1-800-222-3448 (V, TDD), Monday through Friday, hours 8:30 A.M. to 5:00 P.M.

Telecommunications Access System/Florida Relay Service

On May 1, 1992, a statewide Telecommunications Relay Service was implemented in Florida. This service is provided under state contract to every telephone customer in Florida regardless of the long distance company that a customer uses to make non-relay long distance calls. The Relay Service provides 24-hour telephone access staffed by specially trained Communications Assistants using special telecommunications equipment. These Communications Assistants relay conversations between people with hearing and/or speech impairments who use a Telecommunications Device for the Hearing and Speech Impaired (TDD) and people who can speak and hear and who use standard telephones. There will be no charge for local calls made using the system. Because of the additional time required to make a relay call, customers with a hearing or speech impairment or customers calling a person with a hearing or speech impairment will receive a discount on their long distance calls using the Telecommunications Relay Service. For more information concerning available discounts, you may contact your Local Service Provider.

THE RELAY SERVICE CAN BE ACCESSED BY DIALING:

Voice Callers.....Toll-Free **1-800-955-8770**
TDD Baudot Callers .....Toll-Free **1-800-955-8771**
TDD ASCII Callers .....Toll Free **1-800-955-1339**
TDD to TDD (For the following types of calls only)
Calling Card, Collect, or Operator Assisted call: .....Toll-Free **1-800-855-1155**

WALT DISNEY WORLD Resort and Epcot® have telecommunications devices for hearing-impaired persons to assist them with their telephone calls and information requests. Units are available at City Hall and Guest Relations in the MAGIC KINGDOM® Park, Guest Relations in Epcot, and all WALT DISNEY WORLD Resort locations. WALT DISNEY WORLD Information can be contacted by TDD at 407-827-5141.

Telephone Service & The Law

Automated Telephone Solicitation

Florida law prohibits the use of a telephone for the purpose of offering any goods or services for sale or conveying information regarding any goods or services when such use involves any automated system for the selection or dialing of telephone numbers and the playing of a recorded message when a connection is completed to the called number. Nothing in the law prohibits the use of automated telephone systems with recorded messages when the calls are made or messages given solely in response to calls initiated by the person to whom the automatic call or message is directed, or when the calls made concern goods or services previously ordered or purchased. Violation is punishable by fine, imprisonment or both.

Recording Telephone Calls

All parties to the telephone conversation must give their prior consent to the recording of the conversation. The prior consent must be obtained in writing or be part of, and obtained at the start of the recording.
